To: Cauga County
Rainbridge Township
Ind.Waste-Sew.

June 13, 1960

General Biochemicals, Inc.
Pine and Clinton Streets
Cleveland Falls, Ohio

Attention Mr. James F. Piger, Plant Supt.

Gentlemen:

Enclosed is renewal permit for the discharge of industrial wastes and sanitary sewage from your establishment into "waters of the state" pursuant to the provisions of the Water Pollution Control Act and to the statement of policy of the Board dated February 24, 1959.

You will note that this permit expires May 1, 1962. Renewal of this permit is contingent upon compliance with the following condition:

The satisfactory maintenance and operation of the industrial wastes treatment and sanitary sewage treatment facilities, respectively, submitting to the Division of Sanitary Engineering, Ohio Department of Health, at bimonthly intervals (July, September, November, January, March, May), reports to include information and analytical data pertinent to the operation and to the performance of the industrial wastes treatment facilities.

Your company is warranted in continuing to participate in the effort to establish a county sewer district in Rainbridge Township which will provide sewerage facilities to which your industrial wastes and sanitary sewage may be made tributary to the Chagrin Falls sanitary sewerage system. In the event this is accomplished, your company would be exempt from permit pursuant to the provisions of the Water Pollution Control Act.

Should you have any questions with respect to the above condition, please notify us promptly.

Yours very truly,

Ralph E. Dwork, M.D., Chairman
Water Pollution Control Board

Gentlemen:

Enclosed is renewal permit for the discharge of industrial wastes and sanitary sewage from your establishment into the "waters of the state" pursuant to the provisions of the Water Pollution Control Act and to the statement of policy of the Board dated February 24, 1953.

You will note that this permit expires May 1, 1967. Renewal of this permit is contingent upon compliance with the following conditions:

1. The satisfactory maintenance and operation of the industrial wastes treatment and sanitary sewage treatment facilities, respectively; submitting to the Division of Engineering, Ohio Department of Health, at bimonthly intervals, reports to include information and analytical data pertinent to the operation and to the performance of the industrial wastes treatment facilities.
2. The submission of a report and plan for compliance with the Recommendations and Conclusions of the Lake Erie Conference (copy enclosed), with special reference to Sections 12, 13, 16, and 18.

Your company is warranted in continuing to participate in the effort to establish a county sewer district in Bainbridge Township ~~which will provide~~ sewerage facilities to which your industrial wastes and sanitary sewage may be made tributary to the Chagrin Falls sanitary sewerage system. In the event this is accomplished, your company would be exempt from permit ~~purposed to~~ ^{July 1966} the provisions of the Water Pollution Control Act.

Gentlemen:

Enclosed is renewal permit for the discharge of industrial wastes and sanitary sewage from your establishment into the "waters of the state" pursuant to the provisions of the Water Pollution Control Act and to the statement of policy of the Board dated February 24, 1953.

You will note that this permit expires May 1, 1968. Renewal of this permit is contingent upon compliance with the following conditions:

1. Provide satisfactory maintenance and operation of existing facilities for the treatment and disposal of industrial wastes and sanitary sewage.
2. Submit to the Division of Engineering, at regular monthly intervals, reports to include information regarding flow volumes and pertinent analytical data on the industrial waste discharges.
3. Promptly report to the Division of Engineering the occurrence and cause of any accidental or intermittent discharges of wastes which may have a deleterious effect on the receiving stream.
4. Submit to the Division of Engineering information pertaining to any plant expansion or process changes which may affect the character of the industrial waste discharges, together with a proposal for providing controls for such discharges so that there will be no deleterious effect on the receiving stream.
